CONTACT US

The new THOR Timber Hammer 1754 packs all of the great features of the original LH1754 with one major addition: THOR's exclusive Lightning Rail Keel. This proprietary keel extrusion not only adds tremendous strength and durability to the already legendary Anvil Hull design, but it also makes the TH1754 the most nimble tiller boat in the Lake Hammer Series lineup. Perfect for dodging trees or running twisting trails through the cattails. The new TH1754 – The toughest, most agile Hammer in the swamp.
