CONTACT US

This FiberCraft F16 is sure to turn heads. The Marsh Tan hull is the perfect camouflage tucked in the grass. It has an impressive dry and smooth ride across big water. Its wide beam provides tons of room for gear, passengers, decoys, and crab traps making it the ultimate choice for our local outdoorsmen and commercial fishermen. Sneaking in back water creeks is no problem for this boat. The Suzuki 75 pushes this boat fast and quiet. Whether you are hunting, fishing, or cruising to the sandbar this boat will impress at every turn! Call us today to take ride!

Introducing the South Georgia native Fibercraft F160 Pro Vee Tiller Edition! Spanning five generations of boat building expertise, our story is deeply intertwined with the coastal skiff tradition, showcasing over 50 years of craftsmanship. It effortlessly glides through the water, striking a balance between agility and offering fishing space similar to an 18-foot vessel. This boat is exclusively constructed from fiberglass, seamlessly integrating the hull and stringer into a single, sturdy unit. The 160 Pro Vee boasts a 69-inch-wide bottom, an overall width of 84 inches, and an overall length of 195 inches.
